

IN YEAR 2

Children in Year 2, have written their own suspense stories. Have they told you all about them yet? They also have performed a Christmas play in front of the whole school and the Year 2 families.

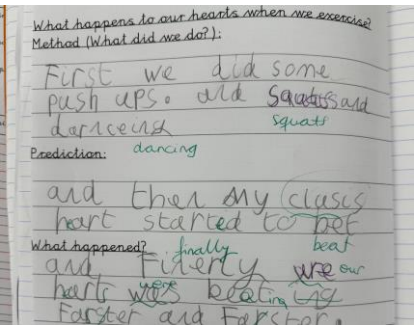

In Science, we started a new unit "Animals including humans". We explored how exercise is beneficial for us and we carried out experiments to put these into practice and compare the beat of our hearts before and after exercise. What a very interesting topic this is!

THIS MONTH'S SUPER LEARNERS:

Fitzwilliam- Klara has been so keen and enthusiastic in every single activity we have done as a class. Well done Klara, what a great child you are!

Kings- Hugo has shown great resilience, thinking outside the box and empowerment when rehearsing our Christmas show. You really stole the show!

In Kings and Fitzwilliam classes, children have carried on learning about shapes. They have enjoyed counting edges, faces and corners of 3D shapes. Learning the names hasn't been an easy task but they persevered and worked super hard.

Name	Number of sides
Cube	✓
triangle triangular prism	6 ✓
Sphere	0 ✓
Cone	1 ✓
Square based pyramid	5 ✓
cuboid	8 ✓
cylinder	0 ✓
