

in Year 5

We have consolidated our unit on 'Properties and Changes of Materials' this month.

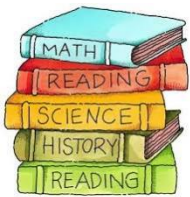

Here you can see lots of focus from Churchill students, observing what effect a fizzy drink (coke), has on different materials.

This Month's Super Learners

Churchill: Louie, Jackson, Cerise, Willow, Joseph and Nadav

Magdalene: Bogdan, Martin, Haena and Benji

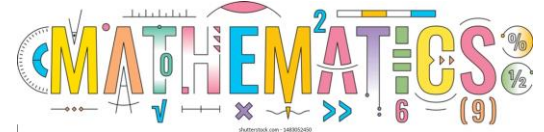

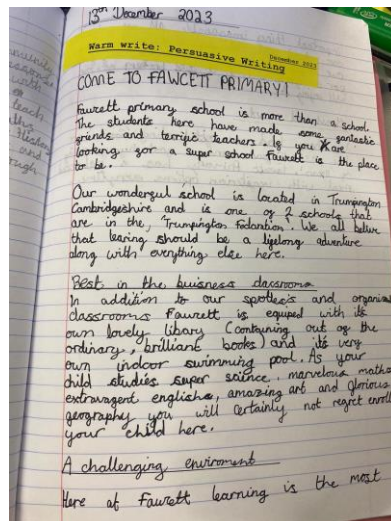

In English, we've had great fun writing persuasive texts. Our first lesson was to persuade our teachers to get something for the classroom – snack fridges and pets featured heavily!

We reflected on our fantastic trip to Warner Bros Studio – the Making of Harry Potter by creating a piece of writing persuading other people to go.

Finally this month, we wrote about why children should come to Fawcett Primary School!

Check out why you should your child to Fawcett Primary, written by a student in Magdalene...

In Maths this month, we returned to multiplication and division (arithmetic). We've introduced short and long multiplication, and enjoyed working out sums multiplying up to four digits by two-digits e.g. 5478×57 – it has been great to apply all that TTRS practice!

We've also had good opportunity this month to apply our maths skills in DT, where we've been building bridges:
