

in Year 4

Our Superstar Learners

Progress Award – Liam, Le'Shae, Steve, Evie, Heidi,

Achievement Award – Leo, Mikey, Lena, Paris, Vihaan,

Bronze Housepoints -

Vihaan, Amelie, Alfie, Myng, Lucas, Le'Shae, Ada, Wilbur, Anna, Olivia, Leo, Steve, Muhammad, Emma, Lucy, Lena, Lewis, Miles, Jisu, Amelie, Myng, Wilbur, Olivia, Ada, Alfie Muhammad, Bella, Steve

Silver – Vihaan, Stella, Emma, Myles

Reader of the month:

Le'Shae and Jisu

Platinum – Lucy

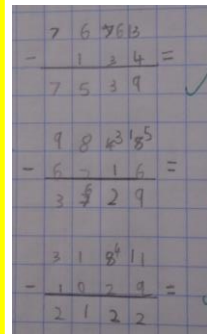

We have been learning about our teeth.

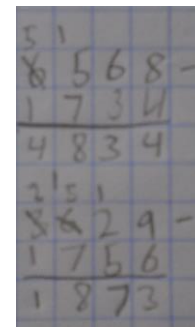

We had fun using disclosing tablets to look at how well we clean our teeth! After that, we set up an experiment to see how liquids affect our teeth. We used eggs to represent our tooth enamel. Some of us guessed which liquid would cause the most damage to our enamel.

The vinegar had dissolved the egg shell, orange juice had caused bubbles on the outside of the shell, coke had made a brown stain and water had made no change!

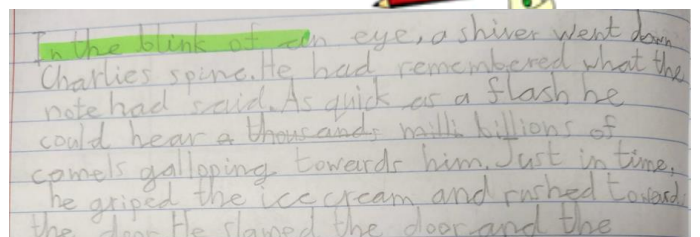

We have started our unit on addition and subtraction; this builds on from our previous unit of place value. We are using the column method for addition and subtraction.

Playtimes after half term – all children will be going outside for playtime. Please make sure your child has wellies, waterproof coat and trousers. Thank you.

In Geography we have been finding out about different European countries. We created a list of countries and found out some of the capital cities.

We are continuing to develop our sentence structure and a wider range of punctuation. We wrote stories about discovering a portal.
