

November

in Year 5!

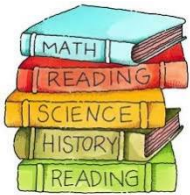

In Science we have been investigating different types of enquiry and considering what makes a fair test or comparative test. In the picture Jackson is making jelly while changing only one independent variable to conduct a fair test, answering the enquiry, 'What makes jelly set quickest?'

This Month's Super Learners

Churchill: Fairouz, Ben, Maigan-Rose, Romeo, Talha, Josh, Veron, Joseph

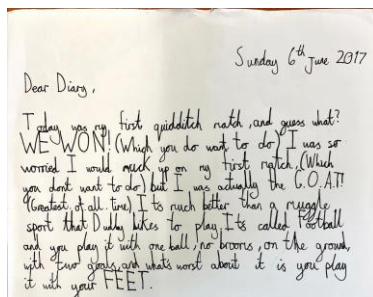

Magladene: Benji, Saanvi, Scarlet, Gyte

Reader of the Month: Jackson and Violet

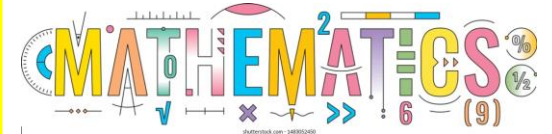

In English we produced some enthralling diaries, putting ourselves in the position of Harry Potter after he'd caught the golden snitch when playing Slytherin!

Here Ben demonstrates good use of informal chatty language and sense of humour – really applying the skills of writing a diary!

In English this year we've focused lots on visualisation techniques. It was fabulous to see story-telling come to life at Harry Potter World – we had a wonderful trip celebrating our topic, 'Magic in the Making'...

We started the month learning about prime numbers, square numbers and cube numbers, before moving onto area and perimeter. We've had to use our multiplication knowledge lots!

Here's Ranin, Cerise, Sofia and Romeo getting to grips with cube numbers:

We were delighted to do very well nationally in TTRS England Rocks competition. Well done to everyone who took part – especially **Oliver W, James B and Muhammad M** who were year fives **most valuable players!**
