

in Year 4

In Year 4, we have started looking at digestion and how our bodies work. The children have begun to learn about the different parts of the digestive system and what their functions are. Coming up in Science are some hands-on lessons including an experiment to see how important oral hygiene is.

This Month's Super Learners

Heidi Logan
Katie Ema
Milly Ellie
Selina Tyler
Ayah

In English, we have been focusing on writing instructions. The class have been using rhetorical questions to hook their readers.

As a class, we looked at example of each other's work and learnt the importance of using clear instructions after a particularly messy jam sandwich making experience!

This month's highlights

We have had a wonderful start to the year and have enjoyed our current Art topic on Cubism.

The class have also been enthralled in our class book '*Mark of the Cyclops*', an unlikely story of two friends discovering their special skills...

We have been building up our knowledge of place value and can identify the value of each digit in numbers up to 10,000! We have enjoyed using bead strings, dienes and number lines to help us.
