

FEBRUARY in Year 3

ART

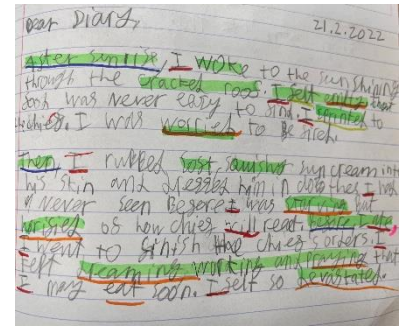

This month, we have been telling stories through drawing and making.

We had so much fun designing, modelling and painting our very own character from Roald Dahl's 'Esio Trot.' We think they look amazing!

English!

We have been writing diary entries this month, making sure they have used the past tense, the first person and include some colloquial language.

This Month's Super Learners

Robinson - Amal, Payton, Ibrahim, Leon, Oliver and Merim

Darwin - John Liad, Mili Oli, Freddie, Omar

SCIENCE

This month we have continued our work on plants, specifically focusing on the parts of a flower. We looked at these one by one, learning their names and their functions. We then discovered what plants need to grow and what might happen if they have too much of these things or none at all. We are excited to carry out an investigation in the weeks to come.

MATHEMATICS

Our focus this month has been statistics. We have been collecting data and representing it on a pictogram and as a bar chart. We have had a go at interpreting data represented in these ways too.
