

SEPTEMBER

IN YEAR 2

THIS MONTH'S SUPER

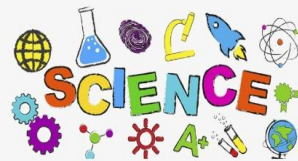

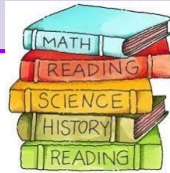

LEARNERS:

Senumi, Ishan and Ollie- They have been incredibly resilient in their first month at school and had such positive attitude towards learning! Well done!

Aamentore and Aysegul- These two children have only just joined Kings Class and have settled really well, listening and trying their best. Thank you.

In Kings and Fitzwilliam Class, children have been busy working on Place Value this first month. They have worked on partitioning two digit numbers, counted up to 100 in 1s and 10s and have even compared 2-digit numbers using $<$, $>$ and $=$ (smaller than, greater than and equal to).

We have started our first Talk for Writing unit and have learned about Journey Stories following the book structure of *The Snail and The Whale*. Ask your children at home who their innovated characters are and which setting they have chosen. How adventurous!

Trying to link our snail unit with Science, children have been looking at habitats and microhabitats. Can they remember what the difference between these two is?

What are the basic needs animals require in order to survive?
