Our topic this half term is sound, we have been learning about pitch, amplitude and watching the vibrations of tuning forks in water!

We have been practising our knowledge of fractions, using number lines, adding and subtracting.

PSHE – talked about responsibilities we have now and responsibilities we would like to have: helping washing up, keeping my room tidy, making my bed, helping with house work!

DRAMA

Our play helped us with our English unit about playscripts. We learnt about how to use the correct layout, and that actions and stage directions are added in brackets. The narrators helped to set the location for each scene and we knew who should be on the stage for each scene.

We had great fun learning our lines and actions for our songs. Everyone worked really hard to make our performances so exciting. Thank you to all the help from our families and carers for finding costumes. We hope you enjoyed it!
