

JANUARY

in Year 4

Our Superstar Learners

Progress Award –

Heidi-Mae, Thomas,
Francis, Anna, Lucas,
Lucy

Achievement Award –

Carlito, River, Aysem,
Myng, Bella, Mutsa

Times tables

Bronze Award – Mutsa

Silver Award - Amelie,
Wilbur, Ben

Gold Award – Olivia, Ada

Platinum - Vihaan

Reader of the Month

Nil, Lucy, Liam

School Council - Vihaan,
Le'Shae, River, Hammad

Eco Ambassadors - Lena,
Lewis, Lucas, Olivia

Subject Ambassadors -
River, Miles, Lewis, Diana,
Liam Steve

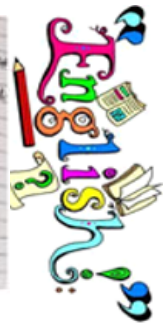

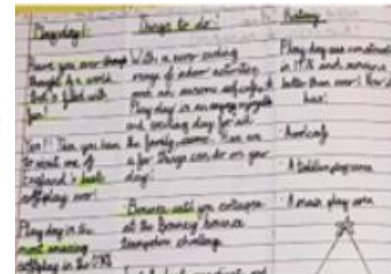

In science we have begun our electricity unit. So far we have constructed simple series circuits, identifying and naming the component parts and the job they do in a circuit. We have also discussed electricity safety.

It's Wolfson's turn for Forest School this term! We have been enjoying den building, tree climbing, making bird feeders and best of all, smores around the campfire!

In English we have been writing persuasive leaflets, using superlatives, imperative verbs, slogans and rhetorical questions to convince the reader!

We used our experience of visiting the Fitzwilliam Museum to pretend to be 15cm high, walking around an art gallery. We had different pictures to look at, instead of using pencil to sketch ourselves, we practised our different poses, and then used clay. "It was really hard creating our clay human. They had really cool poses!" Myles. "I enjoyed making clay models I found it creative and fun! We had to use clay instead of pencil." Olivia

We have been continuing to develop our multiplication and division knowledge. We have been finding the factors and fact families of the product - the answer to a multiplication question.
