

in Year 3

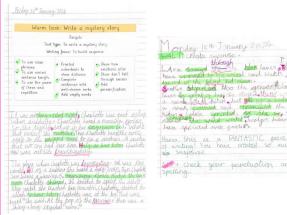

Happy New Year!

This month, we have started our exciting new topic, Awesome Ancient Civilisations. We have learnt about the importance of geographical features (such as rivers) when Ancient Sumer, the Indus Valley and the Shang Dynasty were established. We have also learnt about the achievements of these civilisations and how they are included in our ways of living. We cannot wait to discover more about the Ancient Egyptians next!

This month, we have focused on writing mystery stories. We have explored how characters' emotions alter, and we have practiced our use of personification to help create suspense.

This Month's Super Learners

Well done to everyone who has received a certificate this month!

Robinson: Isabella, Rowell, Jevindu, Kodee, Saanvi and Harley

Darwin: Wyatt, Rocco, Evie, Akiyah, Hana and Riley

Well done everybody for all your hard work!

This month, we have been focusing on the parts of the plant and their functions. We have looked at the inside of a flower, naming the parts and how they help with fertilization and pollination.

In Maths, we have finalised our multiplication and division unit. We can now multiply 2-digit numbers by 1-digit numbers using the grid method. We have also learnt how to divide on a number line.
