

News from the Federation – 14th March 2025

This week, we enjoyed the annual STEM event in school. A huge thanks to anybody who helped out by running a stall – it is always an exciting event that showcases all the possibilities that exist in the world of STEM! In school, children have also been enjoying some special Science activities and I enjoyed a child excitedly recounting how they ‘blew up some bottles’ (quickly followed by their teacher explaining how they had been looking at chemical reactions...). Year 2 have also been talking about their less glamorous experiment – see below!

Science Week

This week, as part of British Science Week, a number of exciting activities have been taking place across the school. Year 2 have been investigating what we can safely flush down a toilet!

Red Nose Day

Next Friday is Comic Relief and therefore we will have a non-uniform day to mark Red Nose Day. Children are free to come into school in their casual clothes (the more red the better) to raise money for good causes in the UK and abroad.

Dates and Events

Term Dates

These can be found on our website using the link: [The Trumpington Federation - Term Dates](#)

Thursday 20th March

Individual School Photos

Friday 21st March

Red Nose Day

Wednesday 26th March

Year 3 Trip to Fitzwilliam Museum

Friday 4th April

End of Spring Term

Tuesday 22nd April

First day of Summer term

Thursday 1st May

INSET DAY - School Closed

Friday 2nd May

INSET DAY - School Closed

Monday 5th May

Bank Holiday - School Closed

OPAL

Next week, we will have our accreditation session with our OPAL advisor. Ahead of this, it would be helpful to have some further contributions to the parent survey. Please do let us know your thoughts on how playtime has changed over the past two years.

The link can be found here:
