In Maths, we have been learning all about 2D and 3D shapes and their properties. We also challenged our pupils to find similarities and differences between them and they loved it!

Date: 12/12/2024
WALT: Identify different food groups.

In English, children in Year 2 learnt how to write a suspense story by adding different features that kept the readers interested. They each chose characters, a setting and a place that seemed to be dangerous where the character of the story was warned not to go to... Spooky!

In Science, we continued learning about animals including humans and we concentrated on food groups.

Our Year 2s put a play together. With a lot of practice and dedication, they successfully performed for the whole school and parents! Well done, everyone!
