

# in Year 1

In Science, we have continued learning about seasonal changes, focusing on Winter. We have talked about the months that are in Winter, what the weather is like, events and celebrations, what happens to plants and animals and clothes we wear to keep warm.

In Geography, we have made maps of the playground to highlight some of the human and physical features.

In RE, we have been learning about the Christmas story.

We have been learning the songs for our Christmas performance in our Music lessons.

In Computing, we have been learning how to program a Beebot.

In PSHE, we have talked about strategies for solving friendship problems and how people in a family care for each other.

In English, we have been writing letters. We have discussed the features of letters and we have written letters to the tiger and Sophie from The Tiger Who Came To Tea as well as the bears from Goldilocks and the Three Bears. Finally, we have written letters to our adults at home about what we would like to do in the Christmas holidays.

In Phonics, we have learnt the sounds o-e, a-e, i-e, e-e, u-e and ew (as in crew).

In our Reading lessons, we have been reading poetry and The Christmas Pine.

## This Month's Super Learners

**Progress: Belinda, Adele and Kim**

**Achievement: Abaid, Mia and Harry**

**Reader of the month: Sienna**

In Maths this month we have focused on place value with numbers to 20. We have made numbers to 20 using different manipulatives such as Numicon, bead strings and tens frames. We have used dienes and part-whole models to identify the tens and ones in 2-digit numbers. We have been finding one more and one less than a given number, comparing numbers and ordering numbers.

We have also revisited addition using a number line, number bonds to 10 and the 1 times table.
