

January in Year 4

Our Superstar Learners

Progress

Award - Yvette, Harry, Alfie, Mannie, Leo, George

Achievement

Award - Yaw, Eliana, Emily, Rhys, Sobhia, Phoebe

Bronze Award

- Stephanie, Brooke, Iaahla, Ruby, Nelli, Reuben, Spike, Thiago, Abigail, Arjun, Esmae, Shanelle, Lucy, Asma

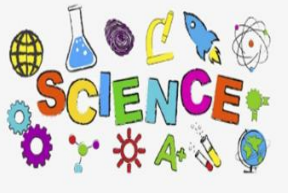

Silver Award -

Alex

Reader of the

month - Tilly, Claude.

Don't forget to keep reading and practising your times tables facts.

This month we have been learning all about electricity. We have found out about electrical appliances and devices and have experimented with making circuits. We have enjoyed making our own circuits and seeing the bulb light up. Did you know you can't power a kettle with batteries? Emily, Cece, Ellis and Edward.

This month in maths we have learned how to use the column method for multiplication and using partitioning for division. Because of Covid, we have missed lots of division work so have been using place value counters, base 10 and drawings.

We have been thinking carefully about how to present our work so that we don't make silly mistakes.

In English we have been learning about persuasive leaflets and how to write them.

In persuasive leaflets there are superlatives, rhetorical questions, slogans and imperative verbs.

Next month we will be learning about warning stories.

Kayleigh, Olivia, Stephanie and Alex.
