

# APRIL in Year 4

## Our Superstar Learners

### Progress Award-

Harry, Iaaahla, Esmæe, Shanelle

### Achievement Award –

Yvette, Claude, Nelli, Maryna

### Silver Award-

Tyler, Claude, Zainab, Rhys

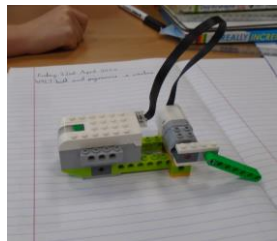

### Gold Award-

Oli, George, Iris

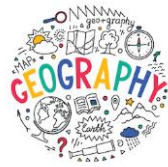

### Reader of the month -

Harvey, Rhys

## COMPUTING

In computing we have been using Lego to build robots and controlling them with a laptop. **Arjun**

In geography we have been learning about Europe and the Mediterranean. Europe is a continent which means it is a mass of land. We have also found out about tectonic plates. **Yaw and Yvette.**

In science we have been learning about solids and liquids. We've been looking and learning about temperature and this week we took the temperature of ice. **Alice**

When we visited the MAA I really enjoyed seeing the Trumpington Cross. It was interesting that the large picture of the Trumpington Cross was different to the real one. I learnt how Anglo-Saxons were buried. My favourite part of the trip was getting to touch Anglo-Saxon tools. **Ruben**

I really enjoyed the MAA because there were lots of interesting artefacts. **Asma**

On our trip to the museum we saw a huge totem pole that reached the ceiling, a really long boat and a man made out of screws. It was really fun. **Spike**
