

# February in Year 2

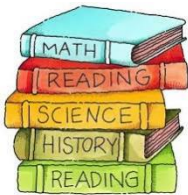

In Science this month, Emmanuel class (Year 2) began to learn about different habitats and how animals are adapted to their environments.

We found out about rainforest and desert habitats and explored the adaptations of some of the animals living there, including meerkats.

## This Month's Super Learners

Congratulations to -

Lihini and Vanessa for earning the achievement certificates and Frankie and Ema for earning the progress certificates.

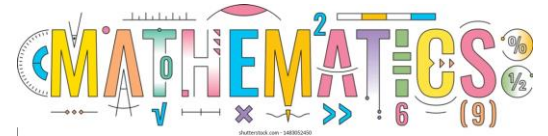

For Reading this month we read the book *Katie in London* by James Mayhew. Children were taken on a journey with Katie as she visited various landmarks in London.

This linked with our big topic 'Where in the World,' and to our Geography, which explores various countries of the world.

For Writing children learned about the key features of postcards and explored the book *Meerkat Mail*, which featured a number of postcards from Sunny the meerkat, as he travelled around the world to find a new home.

Sunny the meerkat went on a variety of adventures in our classroom, which the children wrote about.

In Maths our key topic was Statistics. Children learned how to draw and interpret pictograms and block diagrams.
