

# in Year One

This month we were using our science skills to observe over time by planting our pea seeds which have been sent home. We hope you are able to plant them in pots or in the garden; they should flower and hopefully you will be able to pick some of your own peas. We also set up an experiment where pea seeds were given different conditions and predicted which peas would grow.

We finished writing up our stories based upon 'One Plastic Bag'. We decided to recycle plastic bags and make them into skipping ropes, these have been used at playtime.

We have been learning about seeds and how they grow in Science and in English. This week we have written our own non-fiction booklet about plants.

March phonics: u-e, a-e, air, are, i-e, o-e

## Design and Technology

We made skipping ropes from joining and plaiting plastic bags. We are having fun using them at break and lunchtime!

## This Month's Progress Certificates:

Kara, Gurvir, Rajvir, Nazieh, Martin, Marysia and Phobe.

## This Month's Achievement Certificates:

Cyrus, Dijah, Tahsin, Olivia, Elizan, Clia, Jahneca, and Oliver.

Reader of the Month:  
Oliver and Tahsin.

In Maths this month we have covered a number of areas. We have learned about fractions, and how to find a half/quarter of shapes and amounts. We have also been looking at measuring height and length. We have been able to compare sizes using key words such as longer than, shorter than, tallest, shortest etc. We have completed lots of fun practical tasks to go along with this such as measuring items around the school using cubes, arranging items by height/length order, and using rulers. Be sure to practise your measuring at home (you might even want to make a height chart).

PE is on Monday and Wednesday, please make sure your child has their full indoor and outdoor PE kit in school, thank you.
