

Geography

Under our feet

Our topic this term is Our Active Planet. This week we would like you to find out about what is deep under our feet – The Structure of Earth.

Task 1 – Watch these videos to find out more:

<https://www.bbc.co.uk/bitesize/clips/zwwxn39>

<https://www.youtube.com/watch?v=eXiVGEEPQ6c>

Do you think you would like to explore deep into the Earth's core?

Why might this be tricky?

Task 2 - Have a go at making or drawing your own structure of the earth. Here are some ideas to help you

Or you can use **one** of the colouring sheets attached to the class webpage.

Task 3. Add some labels to your model or picture with the name of each layer and some facts about them. You can re-watch the videos to help, you might have some books at home that you can use or there are some facts on these webpages.
